**Subject:** SB 429

It is with deep concern for the life as well as the peace of mind for the victim of domestic abuse that I urge you approve

SB 429.

It should seem incredulous that after a brutal assault one should have to live in fear of being shot because the law, as currently written, does not permit law officers to remove any and all guns from the abuser.

When will common sense prevail!

Thank you

Alice E. Stokes
